Final Amendments

For the reasons stated above, the amendments proposed in the May 15, 1995, **Federal Register** notice are adopted as final. The following definitions and modifications are incorporated into the NEAP:

Coastal waters means those waters between the baseline from which the territorial sea of the United States is measured, and the outer boundary of the EEZ (i.e., 200 nautical miles (323 kilometers) seaward of the baseline).

Commercial fishery, for purposes of the Habitat and Data Collection Jobs Programs, is defined as the salmon fishery off the coasts and in the State waters of Washington, Oregon, and California for purposes of either selling the salmon harvested or providing a vessel for hire that carries recreational fishermen to engage in fishing for a fee (e.g., charterboats and headboats). Subsistence fisheries do not fall under this definition. For purposes of the Vessel Permit Buyout Program, commercial fishery is defined as a fishery conducted under a 1994 Washington State troll, salmon delivery, Willapa Bay/Columbia River salmon gillnet, Grays Harbor/Columbia River salmon gill net, or salmon charter license. (Note that a salmon delivery license is only for fishing in the Federal exclusive economic zone and landing the fish in Washington State. Salmon troll licenses are only for fishing within 3 miles (4.8 kilometers) off the coast.)

Commercial fishery income, for purposes of the Habitat and Data Collection Jobs Programs, is income derived from participation in the commercial fishery. For purposes of the Vessel Permit Buyout Program, commercial fishery income is income derived from participation in a commercial salmon fishery in the coastal waters of Washington, Oregon, and California, and the waters of Grays Harbor, Willapa Bay, and the Columbia River.

The purpose of this notice is to advise the public that, if no solution is agreed upon in consultations with the Government of Guatemala, the Committee for the Implementation of Textile Agreements may later establish a limit for the entry and withdrawal from warehouse for consumption of textile products in Categories 342/642, produced or manufactured in Guatemala and exported during the twelve-month period which began on May 31, 1995 and extends through May 30, 1996, at a level of not less than 319,417 dozen.

Statement of Serious Damage—Guatemala Cotton and Manmade Fiber Skirts Category 342/642

May 1995

Import Situation and Conclusion

U.S. imports of cotton and manmade fiber skirts, Category 342/642, from Guatemala reached 319,417 dozen in the year ending February 1995, 22 percent above the 262,414 dozen imported in same period a year earlier. Imports from Guatemala were 4.0 percent of total U.S. imports of Category 342/642 in the year ending February 1995, and were equivalent to 4.8 percent of U.S. production of Category 342/642 in calendar year 1994.

U.S. imports of cotton and manmade fiber skirts from Guatemala in Category 342/642 during 1994 entered the U.S. at an average landed duty-paid value of \$71.16 per dozen, 53 percent below U.S. producers' average price for cotton and manmade fiber skirts.

The sharp and substantial increase of low valued Category 342/642 imports from Guatemala is causing serious damage to the U.S. domestic industry producing cotton and manmade fiber skirts.

U.S. Production, Import Penetration, and Market Share

U.S. production of cotton and manmade fiber skirts, Category 342/642, declined from 8,117,000 dozen in 1992 to 6,606,000 dozen in 1994, a decline of 19 percent. In contrast imports of Category 342/642 surged from 6,884,000 dozen in 1992 to 7,661,000 dozen in 1994, an 11 percent increase. Category 342/642 imports continue to increase, reaching 7,908,000 dozen in the year ending February 1995.

The ratio of imports to domestic production increased from 85 percent in 1992 to 116 percent in 1994. The share of this market held by domestic manufacturers fell from 54 percent in

1992 to 46 percent in 1994, a decline of eight percentage points.
